

BenguetCorp

## **COMPANY SAFETY POLICY**

The Management is concerned about the well-being of all employees and stakeholders of Benguet Corporation, the protection of its properties from damages, losses, and wastages, and the preservation of the environment in the area of operation. It is the policy of this Company that safety and health are a priority.

This Company does not want any accident and other downgrading incidents to happen and will do whatever is necessary to prevent the occurrence of the same.

### **"SAFETY IS EVERYBODY'S CONCERN."**

It is stated in the Company's safety manual that the most important function of an employee is to accomplish work in the safest manner possible to protect the lives and limbs of every worker.

Each employee should always consider themselves a safety inspector. They must report immediately any dangerous, unsafe conditions or practices in their workplace.
